Abstraction
Begin Abstraction
Begin the abstraction process. Results and pending requirements will be evaluated.
Edit Demographics
Modify the selected case's demographics data before abstraction.
Create New
Create a new case and add it into the population table, updating your sampling information.

Case Reports
Abstraction Summary
Case abstraction information.

Provider Reports
Patient Information
Patient information.
Informational Messages
Posting and viewing informational messages by case per measure sets.
Performance Results
Overall performance results for each measure in a measure set.
Delinquency
Number of cases still left, incomplete or overdue for the

Cases
Test Provider **AMI**
Nashville, TN
Provider ID: 84 Total Cases: 21 (11, 3, 7)
Discharge Start: 10/1/2007 Discharge End: 12/31/2007
AMI v23 - [10/1/2007-12/31/2007] All Records

| Hospital Patient Id | Medical Record # | Discharge Date | Discharge Status | Sampled Strata | Completed? |
|---------------------|------------------|----------------|------------------|----------------|------------|
| 1111 | 9979 | 10/10/2007 | 01 | | Complete |
| 11122 | 11122 | 10/1/2007 | 01 | | Complete |
| 123am1d | 123456 | 10/9/2007 | 02 | | Pending |

CoreStrategy offers a web-based comprehensive approach to collecting, reporting and submitting required data to The Joint Commission, CMS and other organizations without burdening your IS staff, investing in extensive training, or having your staff spend valuable time on manual data entry. By accepting data from your hospital

information system *CoreStrategy* reduces the abstracting burden by populating many data elements, virtually eliminating manual data entry. Move beyond meeting reporting requirements to effect change. *CoreStrategy* is the first step in improving both process and outcome.

Benefits:

- Pinpoint and address quality-of-care issues and data collection problems before data are submitted with detailed error-checking
- Saves time and money by using your existing information systems to automate data abstraction and data entry.
- Minimize demands on your IS staff through a web-based, HIPAA compliant environment.
